

Submitter: Debbie Blair

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB681

Dear Committee Members.

As the State Treasurer it is the duty of the person holding that office to invest in that which would help our state prosper. The position should not be used to make a statement by withholding said investments. Fossil fuels are a great investment as there is nothing made that can eliminate them in their production. Fossil fuels are used to make nearly all of our product's that protect our nation as well as our state, they provide nearly all of our jobs and nearly all of our state and federal job's. Without fossil fuels we'd have no ink nor paper, no computers. Battery operated vehicles could not be manufactured. There wouldn't be a way to protect our nation from domestic or foreign enemies.

In summary, I think we will cut our own throats if we fail to oppose this measure because we will also eliminate tax revenue.

Vote No on this measure.

Thank you for your consideration
