To whom this may concern

This appears to be another simply a move to put a legal business out of business and to further erode our 2nd amendment rights.

This bill does and would do nothing to prevent crime, it is only intended to further an agenda while targeting small businesses throughout the state. Please quit wasting tax dollars by attempting to infringe on the citizen rights. The ones that pay your wages.

In the attempt to destroy federally constitutional amendments 2, 4,9,10, 14, the Oregon state legislators proposing this bill fully intend to further restrict the legal sales of guns to citizens. There are already laws on the books since 1968, if simply followed, they would have stopped all shootings, assassination attempts, and school shootings then. But they haven't been followed. This leaves removing all guns of 'concern' and restricted magazines, the 'must be locked up when not in use' law (!?) and the FFL laws. Now, this will hamstring FFL sellers from selling legal guns even more, hindering their profits and business.

It presents the question : Does the state of Oregon want to strip the citizens of all rights to carry or sell guns and ultimately be labeled a criminal ?

Thank You for reading and hopefully you can make the oath you swore , to protect the constitution , relevant.

Sincerely

Concerned Immigrant, Citizen and tax payer
