

To Whom It May Concern:

I am deeply impressed with your creativity in painting this measure to stop the sale of arms on the state of Oregon. Your attempts are nothing short of infringing on my 2nd amendment rights. Your measure cannot supersede my constitutional rights provided by the US Constitution. The mere taxing of guns out of existence including those businesses that support my right to acquire arms is blatant infringement on those said constitutional rights. I firmly oppose this measure.

Paul Clint Jones.
