Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB696

Not only does this bill completely stomp all over our second amendment that says "shall not be infringed " but also is completely vague and non deceptive in its text and leaves a lot of thing open for interpretation. Such as "fires faster than normal " what exactly is "normal" especially since all of these devices meet the legal definition of semi automatic meaning 1 bullet per 1 pull of the trigger. This is complete government over reach and is insanely stupid. Hopefully you value our constitution more than your personal beliefs and will vote no based on constitutional rights not politics.
