Measure, Appointment or Topic: HB3166

I oppose the passage of HB 3166. This type of voting, in my opinion: is confusing, expensive, time cumbersome to process, and may not be reflective of what the voter wanted for their vote. (meaning their vote may not count because it was thrown out due to not filling a ballot out correctly). There are few areas in the country that have passed this type of voting. And the one's that have, many decided to get rid of it. Voters, across the state (excluding Portland) made their wishes known when they rejected this type of voting. Hear what we say and quit trying to push this through without the people's ok. I, personally, am tired of the legislature doing this when an election outcome is not what they want.
