House Committee On Rules

Measure, Appointment or Topic:

HB3166

Ranked choice voting makes the voting process convoluted and confusing. It also makes it even more difficult for third party candidates to win. We have seen very negative results in other states such as Alaska. This is a change that should NOT be made.

The change we DO need is to return to requiring valid identification and in-person voting with a mail in option for those with a certifiable need such as a physical disability or living for an extended time out of state. Just as ID is required to purchase alcohol and drive an automobile, we must require ID to vote in order to minimize fraud in our election system. There's nothing racist about it. Sell crazy somewhere else. Thank you for your service to our state.
