

Submitter: Jacob Wilson

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB698

I strongly oppose SB 698. At its core it's takes away the right for responsible citizens who have gone through the proper process to carry and protect themselves with a concealed firearm. It also reduces the safety in these environments removing these items from the legal citizens who would protect against the criminals who have disregard for the law and commit violent crimes. This is nothing but additional red tape against those who follow the legal process proven to work, and providing power to a smaller segment of people to make decisions for the majority.
