

Submitter: Ivana Horvat

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3329

As a Portland native in the video production industry I strongly support measure HB 3329. I have seen how much the creative film industry has grown in this city since 2010 and this measure would mean even jobs for people like me. I struggled in from 2010-2017 finding enough work and had a very difficult time establishing a career and being financially stable. It was very disheartening and stressful. This bill would mean more opportunities for people like me. It is exciting that we have an opportunity to support people in this industry so that they can live full lives, afford to live and start families!
