On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Why are two counties in portland deciding on legislation for the whole state? This is completely unreasonable over reach as usual by the government, infringing on our second amendment rights. It's still amazing to me that people think criminals are going to abide by the law and that increased gun laws will change violence. Please do not support this law as it only makes life harder on legal citizens. From hunters to retailers and fundraisers for good causes this is a bad decision. And once again the infringement of second amendment rights is unconstitutional.
