Michelle Casey

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1120

Please pass SB1120 with full support. Implementing the GIPA recommendations for a human-centered approach to reforming Oregon state prisons.

Coffee Creek Correctional Facility needs vast improvements to create a safer, more humane environment for the incarcerated individuals who dwell there, as well as better practices regarding staffing and training.

As a child of a formerly incarcerated parent, I've seen the damage that incarceration itself does to individuals and families. CCCF should be able to at least provide humane living conditions for the people who are in their building. Thank you.
