| Measure, Appointment or Topic: | SB1006 |
| Greetings: | |

Our State needs experienced timber industry leaders to maintain our State and Federal forests, not someone who is focused on D. E, I. issues.

My life, my father and uncle have worked the sawmills, plywood plants and paper mills. We know the value of timber and have witnessed forest harvest, re-planting and harvest again of our local forests. We also manage our own timber stands on our properties.

Restore the cycles of harvest, replant and harvest again

Thank you
