

Submitter: Jon Cater
On Behalf Of: Law abiding citizens
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3076

Hb3076, along with measure 114, and hb 3075 is going to create a larger black market on illegal firearm sales and hinder law abiding citizens from acquiring firearms ,the legal way, to defend themselves. If police were allowed to do their jobs and enforce the law on SO MANY criminals in our city streets, and drug addicted persons or felons in possession of illegal firearms, we would not see the amount of gun violence we see today. I promise you, without any doubt, a sane, law abiding adult, with no criminal history, no substance abuse, and a legally purchased firearm, are not the people to blame for gun violence! Yet this bill focuses solely on the law abiding and hinders their ability to express their constitutional rights. I oppose hb3076 Thank you
