

Submitter: Robert Hunter
On Behalf Of: fish and healthy rivers
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB1153

Thousands of water rights have been issued in Oregon without any consideration to impacts on our fish, rivers and water quality. This reasonable and overdue bill allows for consideration of impacts on sensitive species and water quality. This is clearly in the public interest and protects important state resources. In fact the considerations should be broadened to include other impacts that adversely impact the public interest as well. Please pass this bill.
