Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I oppose HB 3076 on the grounds that there is already a thorough federal licensing program in place for firearms dealer. HB 3076 will unfairly place a financial burden on federally licensed firearms dealers likely resulting in many small businesses in Oregon going out of business. I fear that when HB 3076 drives small local firearms dealers out of business, that it will create a black market for firearms sales. Federally licensed firearms dealer must adhere to background checks and waiting periods. Black market firearms sales do not adhere do any safeguards put in place and recognized by licensed firearms dealers.
