

Submitter: Joshua Paullus

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Under this measure it creates undue hardships on the citizens of Oregon who are lawfully abiding citizens that already pay enough in taxes. There is no other right that has so many restrictions applied to it. I am without a doubt a believer that you can't stop bad people from doing bad things. To believe otherwise is naïve. Instead of focusing on new laws that only affect lawful citizens, focus on the ones already on the books and increase the severity of them when done in the commission of a crime. All this does is create an already burden system with requirements that are already in place by the federal government. Stop the insanity!
