Measure, Appointment or Topic: SB1120

Please pass SB 1120. Improvements to living conditions for incarcerated people who dwell at Coffee Creek are desperately needed. As a public health professional and Director for a nonprofit organization that supports people as they rejoin the community after prison, I am painfully aware of how the living conditions in these facilities have lasting impacts on the physical and mental health of those who endure them. Notably, these poor health outcomes extend beyond the individual and impact entire communities. Everyone deserves to be treated humanely and it is the responsibility of all of us to hold the DOC accountable in this goal; please pass SB 1120 with full support.
