Measure, Appointment or Topic: HB3076

HB 3076 is yet another solution in search of a problem. Federal Firearms Licensees are already highly regulated and thoroughly vetted by the BATFE of the federal government. There is no need for a state licensing system unless the goal of the sponsors is to harass and generally make business more difficult for gun dealers while also wasting even more of the taxpayers money. Why don't you focus on the real problems facing the state-which in large part are due to policies you've previously implemented-and quit making Oregon's government ever more onerous for its citizens. Thank you.
