Mason Rust

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3076

This is Unconstitutional. The government overreach is getting out of hand. If you guys really want to make the world a better place, Maybe you should focus on getting the drugs off the street. We have a mental illness problem not a gun problem. Maybe you fools should actually try to fix the real problem instead of making law biding citizens criminals overnight.
