

Submitter: William Keady

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I oppose this bill based on the cost of implementation not being clear, or where the funds will come from. This will also create impossible standards for FFL dealers to maintain, causing many of them to close their doors, impacting local economies, and making it very difficult for many citizens to enact their constitutional rights, and defend themselves their families and their property. The constitution is a set of rules for the government, not rules for the citizens that elect them. Shall not be infringed is a clear statement of fact, and this bill does in fact constitute an infringement.
