

Submitter: Tony Monaco

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I am strictly OPPOSED to HB3076. This is a attack against our constitutional rights by putting an undue hardship on FFL's, doing so will cause many of them to have to close their businesses thus making it harder for law abiding citizens to purchase firearms lawfully. So not only would it cause small businesses across the state to close it has the potential to invite unlawful sales of firearms. FFL's provide a critical role as they have the ability to stop illegal purchases by making sure everyone that comes in to make a purchase is legally able to do so. Please vote NO on HB3076 this creates terrible policies and only hurts law abiding citizens.
