Measure, Appointment or Topic: HB3076

My position on this bill, i completely oppose and disagree 1 the bill does nothing to address the problems, that the support people are trying to fix. If you look at statistics, and extract all of the legal gun owners, what are they going to accomplish. You are not stopping suicide. You are not stopping criminals gangs, drug dealers, human traffickers. Maybe enforce the laws on the books. And not attack law abiding citizens, who would protect these people, in a crisis. Lets actually pursue real answers to the issues. Not penalize law abiding citizens.
