Tina Davis

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3076

This is unacceptable and absolutely violation of our constitutional 2A rights. Not letting law abiding US citizens buy a firearm! There isn't a course available to even take. If this is what you require, then the course should be made open to the public before this measure should be even looked at. Which is ridiculous in the first place nowhere in the constitution says you should have to take a course to owner of firearm.
