

Submitter: John Livingston

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or SB1153
Topic:

We need to protect the volume, flow rate, temperature and time of diversion of our streams and rivers in Oregon. Any water transfers need to be carefully reviewed so that we can make sure no degradation to the aquatic habitat occurs. If we don't, we will permanently lose our wild salmon and steelhead population.
