Joe Allen

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3076

I oppose this bill! It is unconstitutional as in it goes against our 2nd amendment. The folks that wrote this bill up fail to realize that 10 round magazines are far below today's "standard" magazine. Manufactured don't even make small enough magazines for many common and reasonable sidearm choices of today.

Manufactures have no proposed intentions of making low capacity magazines for certain firearms like the Springfield Hellcat. Many law abiding, tax paying Oregon residents will have to put out God given right to protect and defend ourselves against todays standard of threats on "hold". Please consider looking into how unreasonable aspects of this bill are. I you want to update what we already have in place for OSP background checks, please do! But this cannot be considered lawful or reasonable on the American people and residents of Oregon. Thank you.
