Measure, Appointment or Topic: HB3076

I oppose this measure. It is ridiculous and unconstitutional to the highest degree. Our state has disgusting cities, gang violence, drug problems, vehicle theft, rampant corruption, and now we can add domestic terrorism to that list as well! The list goes on and on, yet the law-abiding citizens are the ones you people are constantly coming after. It's truly disgusting behavior. We need our leaders to focus on real, pressing issues, not their fragile feelings. Feelings are NOT LAW. You have no right to enforce this unlawful measure. This shouldn't even be a discussion, let alone a vote.
