Randy Wilhelm

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB429

To much Government overreach. Government is designed to work for the people, not against the people. This Government is directly attacking our first and second amendment rights. You try to convince people that by taking away rights from law abiding citizens, that somehow criminals will actually follow these laws. They are criminals. Lock THEM up.

Oregon politicians are soft on crime which is exactly the reason our crime rates are high. If our illegally elected to representatives truly represented the citizens, they would increase the penalty against the real criminals. They would have a war on drugs. They would address mental illness. They would address the real issues. They would quit attacking law abiding citizens.
