

Submitter: Chad Kernutt
On Behalf Of: WE THE PEOPLEA
Committee: Senate Committee On Judiciary
Measure, Appointment or Topic: SB429

Dear Lawmakers,

My name is Chad Kernutt and I urge you to vote NO on SB-429, yet another unconstitutional and gun controlling bill this legislative period making Oregon now number 1 all time for state legislative periods nationally in quantity of gun "safety" bills presented in a single session. But let's not kid ourselves about the slight of hand here, these bills are about control and doesn't make anybody safer but the criminals who prefer to prey on the weak and unarmed civilians. People who want to take their lives will find a way so let's not kid ourselves with the suicide arguments, as gun free Marxist descending societies such as England, Germany, France, Australia, and Canada have suicide rates that parallel America's. Germany and France have murder rates and weapons related crime rates that are on par with America's and England's is higher than ours, and the Europeans are seeing it by way of knives, hammers, and other tools. But i don't see liberals in those countries or ours making a push to ban and regulate those weapons and tools. No this has always been and always will be about control. And gun control is the issue.

Let's talk about what a 72 hour wait period will do if liberal law makers force this unconstitutional bill upon us. 72 hours from purchase to possession will make sure that a woman who is a victim of domestic violence and stalking, will be beat again, she will be raped again, and some of these women will be murdered. Or in case of the children, the mothers wont be able to prevent the children from being beat by their bully fathers again or raped by their pedophile fathers or grandafthers. Pick your poisons, these are all actualities in every day society. All because they could not possess the great equalizer in their time of victimhood. The red coats from the Moms Demand Action Army bring emotions to the table and legislature, but they don't consider that there are 2 sides to that situation coin. Let's talk about us rural folks who have to drive long distances and sometimes hours just to get to a city with a gun shop to purchase and transfer are weapons and do the background checks. Now we will have to drive all the way back to our homes and repeat the process 3 days later to pick up our purchased property? This is not only cumbersome and wrong, it's unconstitutional and would not past the Bruen test as settled law of the land by the U.S. Supreme Court. This is just one more step by out of control woke legislatures to regulate our constitutional rights away from us, and it would not survive a court challenge all the way up through the channels, especially once it made it's way off the west coast and beyond the looney 9th circus appeals court with their 82% fail and return to sender rate.

Please do not burden WE THE PEOPLE and infringe upon our rights and our

property. The founding fathers before writing the 2nd amendment stated that "When the people fear the government their is tyranny, but when the government fears the people there is liberty." This led them to write as forever enshrined law of the land; "The right of the people to KEEP and to BEAR arms shall not be infringed." Please stay in your lane and zones of control and vote down this bad bill. Thank you.

Sincerely,
Chad Kernutt
