I am writing in support of SB 1131. As a member of the city of Corvallis and local bird lover, it is a wonderful opportunity to have such a diverse and healthy community of birds for the public's viewing pleasure. As well as being a great chance for the schools nearby where they'll actually take some of the birds out for the children to see and learn about our native wildlife. Among these couple of examples, they also have a clinical portion of the center where they help rehabilitate injured animals to send them back out to the wild.

I thank you for your consideration in helping out our local wildlife centers
