

Submitter: Robert Luque

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I oppose this on the grounds of the UNITED STATES and Oregon Constitutions. Shall not be infringed is stated in both. This will not help with violence it will let the criminals know that they now can be free to do as they please because obviously they do not follow laws where we (law abiding citizens) have to. Look at California and New York, the states all other west coast states try to model themselves after. Is the crime any better after all of the gun laws were passed? The answer is no, not to mention California is having some of their laws challenged in court for not being Constitutional. The wording for prop 114 was misleading and I believe the citizens of Oregon got suckered into this bill even though it narrowly passed to begin with. Again, I oppose this, Please stop. Thank you for reading my statement. God bless Oregon and America
