

Submitter: Brandon Shanks

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

To me as a law abiding citizen. This will be against our second amendment, right. This would also make it very hard for my son and his future to be able to purchase a gun and to take his kids hunting and to be hunting with family, which is our family tradition and honestly destroy our way of life. This measure will not save lives. It will only make things easier for criminals and it would make things harder for the people that want to protect themselves it is only way in my opinion for the state to get more money out of law abiding citizens.
