Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1120

It is very important to me that you support SB 1120. We owe it to persons in custody to improve conditions they are facing by adopting gender-responsive, evidence-based and trauma-informed policies and practices at all Oregon prisons, and especially at Coffee Creek, as women are, in my estimation, more vulnerable than men.

I trust I will hear from you to the effect that you will vote in favor of SB 1120.
