On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I oppose this bill. We have plenty of super strict background checks in place already. I don't think we need to confuse it any more than it is. I also would like to say the costs are not affordable for ffls. You are going to create an underground market of guns which I do not advocate for, due to ffls closing doors from the heavy burdens you are placing on them. Most ffls homes are used, and they will be required to keep video surveillance of their family life. This really isn't fair to ffls or anyone trying to purchase a firearm to protect themselves. I oppose this bill. Thank you
