

Submitter: David Archerd

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

This study will cost taxpayer dollars which would be better served apprehending and prosecuting criminals. Oregon needs to utilize the FBI like other states do for performing said checks.

Also Oregon needs to train staff in the US Constitution and semantics as it is all too common for a

citizen to be delayed for months when purchasing a firearm when the citizen has absolutely no criminal record. This bill puts a financial burden on the taxpayer when Oregon officials already asking the federal government for funding. As a citizen who loves my home state of Oregon for all of my life, I strongly oppose this bill.

Thanks you.
