Measure, Appointment or Topic: HB3075

Measure 114 is a direct violation of the second ammendment of the United States constitution. Any laws that infringe on firearms in anyway is a violation. If oregon continues down this path it opens the door for huge lawsuits against the state. Not to mention if anyone is fined or arrested on this unconstitutional law would be released of all fines and arrests once it goes to the United States Supreme Court, opening Oregon to additional lawsuits that will be won by any citizen. Do not pass this heinous law.
