

Submitter: Esther Hamilton

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I urge you to please oppose this bill. Adding more regulations to my already overregulated rights in this state is becoming ridiculous. This State isn't enforcing any of the laws already in place. Gang violence and drugs are rampant in our cities. Why are the criminals not getting charged for their crimes? Now you want to add additional fees, licensing and regulation on of Law abiding Gun Dealers that have FFL's acronym for Federal Firearm License? Please stop adding more regulation and stop trying to take away our fundamental rights because you dont agree or understand and please start enforcing the laws we already have.

Thank you
