

Submitter: Ann Littlewood

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

Beavers on public lands should be left to do what beavers do best--create the wetlands we need for wildfire mitigation, fish spawning, and many other services. Fur trapping can still be done on other property--only on the classified degraded landscapes will it be banned. Many non-lethal solutions exist for any problems beavers cause in culverts and around trees. Please let the beavers restore waterways.
