

Submitter:

Daniel Bantz

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB429

This bill seems like a useless paperwork law that won't stop bad actors. It will only restrict the vast majority of good citizens from being able to receive a legal product when they go to purchase it. Firearms are the only consumer product specifically protected by our federal constitution, and even more specifically by our state constitution. More than any other good, firearms should not be held back from lawful and law-abiding buyers.
