Measure, Appointment or Topic: HB3076

This bill is only going to affect all the law abiding citizens, and negatively! It's going to end the mom and pop gun shops, and that will take away jobs. To force us to take a training, if anyone will be giving one, to get permission to fill out a background check is absolutely ridiculous. To not be able to pass firearms down to generations unless they go through this garbage is un-American! The amount of rounds my magazine holds is not the problem! This bill is terrible, and will only make the NON law abiding people stronger! They don't follow laws anyways.
