

Submitter: Aaron Gillespie

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

* The bill creates unnecessary red tape and burdens for law-abiding gun owners and businesses.

* The background check and licensing requirements are too strict and will make it harder for people to get guns for self-defense.

* The bill focuses on regulating legal gun owners instead of addressing the root causes of gun violence.

* The healthcare provisions could lead to higher costs and less choice for patients.

* The bill is an overreach of government power and infringes on individual rights.
