HB3076

I stand with all my fellow 2A supporters when I say that this Measure is unconstitutional. You are directly infringing on the right to bear arms. A right to protect one's self in our homes, on the trails, or anywhere else. The idea that this measure will aid in the ending of gun violence is ludicrous. Do criminals follow laws? No. Will they see this measure and say, "well darn. Guess I can't have this anymore..." No. I once was proud to call Oregon home. But at this point, with the current measures being passed that blankly ignore constitutional rights, I am ashamed to be an Oregonian.
