

Dear committee,

"I wholeheartedly support the OHCS rental assistance program and the incredible work it does for individuals and families in need. I know a lot about this program, as I was once a client of IRCO and received rental assistance during difficult times for my family. This program provides vital relief to those who are struggling to maintain stable housing, especially in times of financial hardship or unexpected crises. The impact of having a safe and secure home cannot be overstated, and I believe that OHCS rental assistance program is essential in preventing homelessness and promoting community stability.

It's inspiring to see how this program is making a difference in people's lives, offering not just financial support but also hope and peace of mind during difficult times.
