

Submitter: Javier Moya

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

I am opposed. This would allow wake boats to continue to operate. I paddle a small human powered craft (scull and surfski) and these large wakes are a danger to me and other paddlers. I have capsized due to the wake from these ballasted wake boats. Plus the environment is harmed by the large wakes. Thank you.
