

Submitter:	Constance Coleman
On Behalf Of:	Beavers
Committee:	House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic:	HB3932

We humans must wholeheartedly support the protection of beavers. They are hard-working natural engineers whose efforts benefit the ecosystems of which we need to learn to be a constructive--not destructive--part. They benefit trees, which are the very best carbon sinks. They benefit wetlands, which are the very best water purification systems and excellent flood control.

Please pass HB 3932.

Thank you--  
C. Coleman
