I am in full support of Chintimini Wildlife Center receiving a grant to sustain and expand their services to our community. They operate on the good will of volunteers and donations. This grant would allow them to create an educational nature center that would be open to the public. This would both create revenue for Chintimini but also provide valuable educational opportunities on the importance of environmental stewardship and biodiversity. I can especially see this being a huge asset for local schools and science teachers. Thank you for your consideration.
