

Submitter: Darren Stajduhar

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

Beavers create a lush landscape that benefits many species and filters water. Their habitat is more fire resistant which is needed here in the High desert. I am a volunteer with ONDA and we try to restore the desert to its natural state while still allowing people to enjoy it. That is why I support this measure.
