

Submitter: Rocco Urman

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I am writing this testimony as a federally licensed fire Arms dealer representing Wulf Arms of Vernonia in Columbia County. This proposed text of requiring our business to have a state license and additional regulations and requirements is burdensome to deal with, will produce no further good or safety to the community. This only serves as an additional expense to the state and businesses within the state hurting commerce. Creating additional restrictions and burdens on businesses and consumers alike will only harm the people of Oregon. Tightening the market on firearms in any way will only continue to discourage people from responsibly training to be competent and safe with firearms which in turns makes individuals less safe in this state and promotes crime. This is wholly unacceptable that representatives would seek to introduce a house bill such as this when there is already licensing and regulations in effect since 1968 on the federal level with the Gun Control Act of 1968 achieving the same thing. This will lead to undue financial and tax burden on tax payers in the state requiring the state to legally defend this frivolous law as there will be legal action against this. Reject this house bill in entirety.
