

Submitter: Karen Bloom

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I support this proposed law because it provides common sense regulations on gun dealers in or to keep the people in our state just a little bit safer.

Things like background checks can make a difference. Just think of the safety of our young people in schools and how many of them our nation has lost due to gun violence. Please, please, please vote for this bill so it can come to a vote in our legislature and get passed into law.
