Senate Committee On Judiciary

Measure, Appointment or Topic:

SB696

This is an attempt to get a toe hold in on removing the rights of law abiding gun owners. The anti-gun activists know they cannot remove our rights as a whole. So they want to infringe, a step at a time. They refuse to address the "criminals with guns" aspect.

Law abiding citizens' rights shall not be infringed.

Why do we worry so much about the rights of criminals? They have actually done things to cost them some rights and privileges.
