On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or Topic: HB3932

I support this Measure. As a hunter I've questioned the of abuse of Oregon's wildlife trapping. Such as the trapping of bobcats where hunters recruit their family members to apply for, and obtain trapping tags for the sole purpose of increasing their fur harvest quantities for the season. Although legal, there is obvious excess which the State Fish and Wildlife Commision may want to consider. Visiting any fur trade sale will raise eyebrows where some hunters (AKA sellers) clearly have 'a lot of furs' to sell.
