Measure, Appointment or Topic: HB3076

I am a retired 25 year law enforcement officer here in Oregon. Not much has changed in Oregon other than criminals are never held accountable and so they learn that crime pays. Stricter gun laws are not the solution here and never have been. I have been involved in more violent crime investigations than you can count. Here is the takeaway. Hold the criminals responsible, not penalize the good people of Oregon for the bad actors who do criminal acts. You are chasing the wrong people with this law.
